1401432				Hi, I believe that if planning and infrastructure has been allowed for the expanded area, this should be included in the rezoning, whilst all the letters and correspondence have stated there is enough greenacre developable land, news paper articles and other experts state we will run out of developable land in a shorter time than predicted. My submission is that the expanded area be rezoned in the short term and the release of the expanded area can be managed by the PSP and planning departments at VPA and Ballarat City Council. This would dramatically reduce the time frame if developable land is required but still controlled by the issue of the PSP if/ when required to be released.		2025-09-30 10:24:08
